

## What people are saying about the Little Rockets...

 "As new parents, we were nervous to send our daughter to daycare for the first time but we have been so happy and grateful for this experience. I know she is well cared for and she shows how much she enjoys it by the look of excitement she has when we walk into the daycare each day. It is easy to see how the Little Rockets staff "get" her and all of her quirks which makes us feel better as well. "

-Tricia and Mike

Tricia, Math Dept. Pollard Middle School

 "We have been thrilled with the Little Rockets program for our son! He has thrived since he started, and the staff have worked with him and supported us on all areas of his learning and development. He is happy and excited to go to school every morning, and that has helped make the transition easy for us. It's wonderful that the Needham Public Schools offers a program like this to support their staff members in balancing their careers and families."

-Becca & Ben

Rebecca, Preschool Director  
Needham Public Schools

 "Our first-born became a Little Rocket at 3 months old and it has been a joy watching her learn and grow with the support and supervision of the LR staff. The LR staff share in our excitement as our daughter reaches new milestones and are full of helpful suggestions and resources when we are looking a bit frazzled after a long night. We really couldn't ask for better people to welcome into our daughter's life. It has also been extremely helpful having a daycare that operates on the NPS schedule. Melanie is able to drop off our daughter and still make it to school with time to prepare before class and we don't have to worry about misaligned breaks and snow days making us miss work."

-Melanie & Mirco

Melanie, chemistry teacher  
Needham High School

 "We are so thankful for the NCE Little Rockets program. We have had our daughter in a few schools and now we feel like we are home."

-Marissa and Jeremy

Marissa, High Rock Visual Art Teacher
