Dear Parent/Guardian,

In order to administer medication to your student(s) during the school day, please adhere to the following policy:

- Both the Parental and Physician Authorization Forms must be completed in ink before any medication can be administered in school
- Medication orders must be renewed at the beginning of each school year
- Whenever possible, medication administration should be scheduled at times other than during school hours
- All medication(s) must be delivered to the Health Office by the student's parent/guardian, or a designated adult
- Only a thirty (30) day supply of medication will be accepted at any time
- All medication must be delivered in a correctly labeled pharmacy, or manufacturer's medication container
- The pharmacy-labeled container can be used in lieu of a physician's order only in the case of short-term medications i.e. medications that are to be given for ten (10) days or less. If the school nurse has a question about the medication, the nurse may request a licensed prescriber's order
- Self-medication may be allowed under certain circumstances after consultation with the school nurse; the school nurse has the final decision in determining if self-administration is deemed safe and appropriate
- If a medication needs to be given during a school sponsored event such as a field trip, the school
  nurse must be contacted <u>at least two weeks in advance</u>, in order to allow time to make special
  arrangements
- A parent/guardian may retrieve medication from the school at any time
- All medications must be picked up by a parent/guardian before the close of the school year. Any
  medications that are not picked up at that time will be destroyed

Thank you for your assistance in this matter, feel free to contact your school nurse with any questions!
